PROFESSIONAL SUMMARY

B.Tech CSE graduate with hands-on experience in AI-powered applications, frontend development, CMS platforms, and cross-platform mobile app development. Skilled in React, Next.js, React Native, Flutter, Node.js, Shopify, WordPress, Firebase, and modern AI workflows including RAG architecture, OpenAI APIs, and vector-based retrieval systems through building Syntrix AI, a production-grade AI career assistant.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript, Dart, Java

Mobile

React Native, Expo, Flutter, Android development

Frontend

React.js, Next.js, Tailwind CSS, HTML5, CSS3

AI / GenAI

OpenAI API, RAG Architecture, ChromaDB, Prompt Engineering, Vector Embeddings, Semantic Search, Conversational AI

CMS / E-Commerce

Shopify Liquid, Theme Development, Storefront API, WordPress, Metafields, Core Web Vitals

Backend

Node.js, Express.js, Socket.io, REST APIs, JWT, WebSockets

Databases

MongoDB, Firebase, Firestore

Cloud / Tools

Vercel, Railway, Render, Git, GitHub, Postman, VS Code, GitHub Copilot, Cursor

EXPERIENCE

Shopify Developer

Pure Cosmeceuticals Pvt. Ltd.

10/2025 – 05/2026 | Remote

- Built and maintained a production Shopify storefront for a cosmetics brand, creating custom Liquid sections and metafield-driven product pages.
- Integrated third-party Shopify apps (review, marketing, and analytics) and configured them to work with the existing theme without breaking layout.
- Improved mobile page load speed by refactoring Liquid templates and adding lazy loading to product images, resulting in better Largest Contentful Paint (LCP) scores.

Mobile App Developer Intern

Celebal Technologies (CSI)

05/2025 – 07/2025 | Remote

- Developed reusable UI components in Flutter and React Native across 4 feature screens, which reduced repeated code across the project.
- Set up Firebase Authentication, Firestore database, and Cloud Messaging for push notifications as part of a 2-week sprint.

Flutter Developer Intern

Tamizhan Skills

06/2025 – 06/2025 | Remote

- Reduced app startup time by approximately 1.5 seconds by reorganizing the widget tree, compressing images, and switching to async data loading with FutureBuilder.
- Restructured the codebase into separate UI, logic, and data layers following clean architecture principles, making it easier to maintain and test.

EDUCATION

B.Tech – Computer Science and Engineering

University of Engineering and Management, Jaipur

2022 – 2026 | Jaipur, India

- CGPA: 7.5

CERTIFICATIONS

AI Fluency for students 

Introduction to agent skills 

AI Fluency : Framework & Foundations 

LEADERSHIP AND EXTRACURRICULARS

Lead Choreographer, Atrang Cultural Club – UEM

- Coordinated and directed a 10-member team for multiple university cultural events.

Operations Coordinator, The Speech Society – UEM

- Managed event logistics, guest coordination, and communication for public speaking events on campus.

PROJECTS

Truth & Beauty US – Live Shopify Store

Shopify, Liquid, Eurus Theme, CSS, Core Web Vitals

- Customized the Eurus Theme for a live US-based skincare brand, building 4 custom Liquid sections with responsive typography using CSS clamp().
- Improved image delivery using Shopify's image_tag with lazy loading and responsive srcset to help meet Core Web Vitals targets.

Syntrix AI - GenAI Career Copilot

Next.js • TypeScript • Tailwind CSS • Node.js • Express.js •

OpenAI API • LangChain • ChromaDB • NextAuth.js • RAG Architecture

- Built Syntrix AI, a full-stack AI-powered career assistant using Next.js, Node.js, OpenAI APIs, ChromaDB, and RAG workflows for ATS analysis, semantic job matching, AI interview generation, and conversational career guidance with secure Google OAuth authentication.

TARS – Real-Time Chat App

React, Node.js, Socket.io, MongoDB, JWT, Clerk, Vercel

- Built a full-stack real-time messaging app with WebSocket-based communication using Socket.io, user authentication via JWT and Clerk, and data storage in MongoDB.
- Designed the backend REST API with Express.js and deployed the full app on Vercel with automatic deployments connected to GitHub.

Flutter Application Suite

Flutter, Dart, Clean Architecture, Local Storage, Android

- Developed multiple Flutter applications including task managers, journaling, and event management apps with offline storage, clean architecture, responsive UI, and optimized state management.
